

# About PhilanthroCorp

## **Who We Are**

Since 1997, PhilanthroCorp has served hundreds of the Nation's most respected faith-based organizations and thousands of their supporters with will and estate planning. Our unique approach is designed to be a service to our clients' supporters.

## **Our Values**

Estate planning is the single most important act of stewardship many of us will ever undertake. We understand that God is the owner of everything. Through our efforts, we help families achieve their goals while transferring management of estate assets in a way that reflects their values.

## **Our Impact**

Through our work with donors, we have been able to direct over \$3 billion in resources to our non-profit clients' work. The impact of these gifts will be felt in these organizations for a very long time.

# Why Choose PhilanthroCorp?

## ***A Recognized Leader***

PhilanthroCorp has the privilege to serve many of our Nation's most respected churches, para-church organizations and educational institutions and thousands of their supporters. As a result of these relationships, money that might have otherwise been lost to unnecessary taxes has been redeployed for Kingdom causes.

## ***Measurable Results***

An investment in the services of PhilanthroCorp will produce impressive and documented results. Historically, every dollar invested will return \$40, in terms of present values of future gifts. Each month, we will report to you the confirmed gifts and supporter activity so you can measure your investment.

## ***Serving, not Fundraising***

We have found that when committed supporters are guided through comprehensive will and estate planning, giving comes naturally as an extension of lifetime giving patterns. We simply help the supporter and their family transition the management of their estate assets in a way that reflects their desired legacy.
